

EURO STANDARDS - FULL MIND MAP

Topic-wise | Hinglish | SSC / BPSC / BSSC / Railway

Topics in this chapter:

1. Euro Emission Norms - Pollutants Covered
2. Euro-II Diesel Sulphur & Automobile Emission Limits

1. Euro Emission Norms - Pollutants Covered

- yuro vahan-emissions standard carbon monoxide (CO), haidrokarban (HC), nitrogen oxides (NOx) aur vahan-category ke ke mutabik kaniy substance jaise pollutants ki limit specified karte hain. basic option mein "lead" material/OCR truti thi; related historic pariksha-sawal mein sahi option "nitrogen oxides" hai. [Q1]

2. Euro-II Diesel Sulphur & Automobile Emission Limits

- is sawal ke historic Euro-II fuel-quality context mein diesel mein sulfur ki amount lagbhag 0.05% (500 ppm) ya usase kam specified thi. adhunik kam-sulfur fuel standard is historic Euro-II level ki comparison mein kaphi kathor hain. [Q2]
- yuro emissions standard vahan-category aur standard-level ke ke mutabik carbon monoxide, nitrogen oxides, haidrokarban aur kaniy emissions ki simaen specified karte hain. is sawal ke diye options mein carbon monoxide direct roop se niyantrit pollutant hai. [Q3]
